Energy performance certificate (EPC)			
120 Avery Hill Road LONDON SE9 2EY	Energy rating	Valid until:	17 March 2035
		Certificate number:	9683-3048-2207-9725-0200
Property type	S	Semi-detached house	)
Total floor area	110 square metres		

## Rules on letting this property

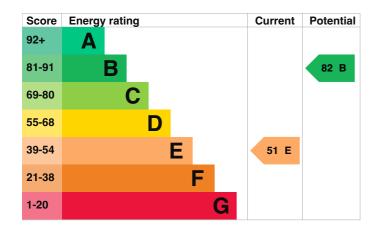

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

### **Energy rating and score**

This property's energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

## Breakdown of property's energy performance

#### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 12 mm loft insulation	Very poor
Roof	Flat, insulated (assumed)	Average
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Good
Lighting	Low energy lighting in 80% of fixed outlets	Very good
Floor	Suspended, no insulation (assumed)	N/A
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	Room heaters, electric	N/A

#### Primary energy use

The primary energy use for this property per year is 301 kilowatt hours per square metre (kWh/m2).

### How this affects your energy bills

An average household would need to spend £1,885 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £885 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2025** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

#### Heating this property

Estimated energy needed in this property is:

- 15,687 kWh per year for heating
- 2,944 kWh per year for hot water

## Impact on the environment

This property's environmental impact rating is E. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.

#### **Carbon emissions**

An average household	6 tonnes of CO2
produces	

This property produces5.8 tonnes of CO2This property's potential<br/>production1.8 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

### Steps you could take to save energy

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£206
2. Internal or external wall insulation	£4,000 - £14,000	£369
3. Floor insulation (suspended floor)	£800 - £1,200	£76
4. Floor insulation (solid floor)	£4,000 - £6,000	£39
5. Heating controls (TRVs)	£350 - £450	£47
6. Condensing boiler	£2,200 - £3,000	£88
7. Solar water heating	£4,000 - £6,000	£60
8. Solar photovoltaic panels	£3,500 - £5,500	£440

#### Help paying for energy saving improvements

You may be eligible for help with the cost of improvements:

- Insulation: Great British Insulation Scheme (www.gov.uk/apply-great-british-insulation-scheme)
- · Heat pumps and biomass boilers: Boiler Upgrade Scheme (www.gov.uk/apply-boiler-upgrade-scheme)
- Help from your energy supplier: <u>Energy Company Obligation (www.gov.uk/energy-company-obligation)</u>

# Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Martin Buckland	
Telephone	07720034160	
Email	martin.buckland3@ntlworld.com	

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Assessor's ID EES/003307 Telephone 01455 883 250	Accreditation scheme	Elmhurst Energy Systems Ltd
	ssessor's ID	EES/003307
	elephone	01455 883 250
Email <u>enquiries@elmhurstenergy.co.uk</u>	mail	enquiries@elmhurstenergy.co.uk
